About me:

Front-end developer with over **5 years of commercial experience** in web development (freelance). Delivered **100+ websites from scratch** and completed more than **200 improvements** to existing projects. Specialized in React/Next.js, TypeScript, and modern UI libraries. Focused on clean code, performance optimization, and intuitive user interfaces. Currently seeking a **Front-end / React Developer** position in a product team.

Experience and projects:

Freelance Front-end Developer

2020 – Present

- Developed **100+ responsive websites and landing pages** for small businesses and startups.

- Completed **200+ improvements** including performance optimization, API integration, and UI/UX enhancements.

- Translated Figma designs into pixel-perfect layouts.

- Integrated APIs (Axios, RTK Query), implemented payment systems, and built forms with validation.

- Worked with a stack including **HTML, CSS/SCSS, JavaScript, TypeScript, React, Next.js, Redux Toolkit, Tailwind CSS**.

- Managed projects from idea to production and communicated directly with clients.

Selected projects:

- **GameHub** - Next.js + TypeScript + Redux Toolkit + RTK Query + Tailwind CSS + Swiper: a web application with a game catalog, filters, and sliders. Built a custom database from scratch and implemented API endpoints with Next.js. Integrated Google authentication (NextAuth) with user data stored in the database to synchronize likes across different devices. Additionally, implemented review likes using LocalStorage. Demo Link

- **Crypto Dashboard** - React + Tailwind + Chart.js + React Router: dynamic crypto asset tracking dashboard, connection of all popular crypto wallets, coinstats API, Binance API, react-hook-form, react-router and much more. Demo link
